

Payouts via Paypal

Players,

All payouts will now be processed via PayPal. Players will still be required to have an IRS W9 form on file before any payouts will be processed.

How it works:

To be eligible to receive payments:

- Player's email or fax a copy of their W9 to 815-414-5558 or usradikalsupport@radikaldarts.com
- Players must have a valid email address on file in your Radikal Players Online Account - this email address must also be associated with your paypal account.
 - If you already have a paypal account please be sure you update your email address in your Radikal Players account to match the email address you use for paypal.
 - If you do not have a paypal account you can create one for free using the same email address from your Radikal Players account.

Receiving payments:

- Every recipient receives an email notifying them of the payment. There are three scenarios for recipients.
- Recipients with a PayPal account tied to the email address that contains the payment notification can click a link in the email message, log in to their account, and access their payments.
- If the recipients have a PayPal account, but the payment is sent to an email address that is not tied to their account, they are offered an opportunity to log in to their account. Then, when they log in, the money is deposited to their account and the new email address is added to their account automatically.
- If the recipients do not have a PayPal account, their email message contains a link that directs them to a PayPal sign-up page. The sign-up process automatically confirms their email address. When they complete the sign-up process, the money is available in their new PayPal account.
- The email notification will be from **Gaelco Darts USA via PayPal** with the reply to email address usradikalsupport@radikaldarts.com
- Once the payment is in your paypal account you have the option to make online purchases, withdraw it to a bank account, have a check mailed to them (by PayPal), or request for PayPal to send you a debit card to access your funds.
